1	Name of Work	GENERAL-Grey water Management Project 2025-26 – <b>Community level SOAKPIT in Unnikulam GP – Kozhikkodedistrict.</b> - General Civil Work
2	Location of Work	Kozhikkode
3	Estimated Cost of Work	Rs.249657/-

4	Brief Description of Work	3 soakpits-soak pit is the Wastewater from sources such as bathrooms, kitchens, or laundry (greywater) is collected and directed into a pipe system.The wastewater is typically channeled to the soak pit from the septic tank or directly from the household plumbing.The wastewater enters the soak pit through a perforated pipe.The soak pit is filled with materials like gravel, crushed stone, or rubble. These materials help facilitate the percolation process, allowing wastewater to pass through and spread across a larger surface area.The pit's walls and the materials inside help filter out large particles, debris, and solid waste from the water.As the filtered water passes through the pit, it enters the surrounding soil.The soil acts as a natural filter, with microorganisms breaking down organic matter and helping treat the water to some extent.The treated water then percolates deeper into the ground, recharging the groundwater table.As water moves through different layers of soil, the fine particles and contaminants get trapped in the soil, helping to purify the water.Some harmful microorganisms are also filtered out
5	Bid Security	Rs.6241/-
