NOTICE INVITING RE TENDER

e-Government Procurement (e-GP)

RE TENDER NO. : KRWSA-KNR/33/2025-TA/RE

The Regional Project Director, Government of Kerala, (OEO) O/o Office of the Regional Project Director, Regional Project Management Unit Kannur KRWSA for and on behalf of the Governor of Kerala invites online bids for the work detailed below from the Registered Bidders of Kerala PWD or from any State or Central Government Engineering Departments which are having similar functionalities like Kerala PWD.

1	Name of Work	GENERAL-Grey water Management Project 2025-26 –SOAKPIT GHSS Chattukappara, Kuttiattoor– Kannur dist.- General Civil Work
2	Location of Work	Kannur
3	Estimated Cost of Work	Rs.82594/-

4	Brief Description of Work	<p>The proposed soak pit is to collect the Wastewater from sources such as bathrooms, kitchens, or laundry (greywater) etc collected through a pipe system and to pass the waste water to ground through granular filter media .The wastewater is typically channeled to the soak pit from the septic tank or directly from the household plumbing.The wastewater enters the soak pit through a perforated pipe.The soak pit is filled with materials like gravel, crushed stone, or rubble. These materials help facilitate the percolation process, allowing wastewater to pass through and spread across a larger surface area. The pits walls and the materials inside help filter out large particles, debris, and solid waste from the water.As the filtered water passes through the pit, it enters the surrounding soil.The soil acts as a natural filter, with microorganisms breaking down organic matter and helping treat the water to some extent.The treated water then percolates deeper into the ground, recharging the groundwater table.As water moves through different layers of soil, the fine particles and contaminants get trapped in the soil, helping to purify the water.Some harmful microorganisms are also filtered out In this estimate Construction of a soak pit is included.The soakpit is planned for GHSS Chattukappara of KuttiyattorGramapanchayath in kannurdistrict.Now the waste water flowing to an open place which cause an un hygenic situation. Here the total number of persons are about 1000 including teachers and staffs,. so a soak pit is suggested for generated waste water from kitchen and a single wash basin .The inner dia of soakpit is 120 cm and the outer dia is 180 cm.gravel , boulders will fill in between the rings as well as in the botom.75 mm pvc pipe provided for collecting the water from the kitchen and washrooms and they are finally connected with 110 mm pvc pipeThe implementation of this system will improve campus hygiene, prevent groundwater contamination, eliminate stagnant wastewater conditions, and promote sustainable water reuse practices, thereby ensuring long-term environmental protection and health safety within the school premises</p>
5	Bid Security	Rs.2065/-
6	Bid Submission fee (Tender fee)	Rs.500/-+(0)GST
7	Period Of Completion	0 Days 6 Months 0 Years
8	Classification of Bidder	CIVIL-D
9	Lastdateandtimeforsubmissionofbids	15.06.2026 at 18:00
